Re: Restaurant Changes

Dear members;

Since the start of the season, and the subsequent opening of the restaurant, we have encountered numerous challenges with our caterer which has resulted in a sub par performance at the restaurant.

We have been completely aware of the situation as we have heard from many of you about your displeasure, and I wanted to assure you that the board, especially the restaurant committee, has been very proactive in addressing these concerns. Unfortunately, the actions put into place have not seemed to help the situation. So, as a result of that we have had to make the decision to change direction and let our former caterer go.

With that, I am happy to announce that after many interviews, we have found what we feel to be a much more than adequate replacement. Chris Caccavella from **Corporate Café** will be taking over the responsibilities of operating our restaurant beginning this Friday evening July 17th. Chris brings with him extensive experience in the restaurant and catering business. He currently operates 4 different locations, including corporate cafeterias and golf course concessions, and has previously run the restaurant at a Yacht Club in South Jersey. We are very excited about Chris and I think you all will be very pleased with this change.

For your benefit I am including a copy of the menu Chris we be offering to start off with. I would encourage you to help support your Yacht Club, and Chris, by coming out this weekend and enjoying some dinner or lunch on the deck.

As always, please feel free to contact me directly with any questions or concerns.

Sincerely,

Rob
